

Visioning the Future: Seven Key Focus Areas

The mission of the Cashmere School District is to "Provide a Quality Education for All Students." By this, we mean that all students graduate from high school prepared for post secondary education/training, careers and citizenship. In order to accomplish this mission, we envision our work in seven key focus areas:

Instruction:

Ensure that our instructional model and best practice is evident in every classroom every day.

Curriculum:

Ensure an aligned and rigorous curriculum where high priority standards are consistently taught and assessed.

Assessment:

Student achievement data will be transparent and utilized on a frequent basis to inform and improve teaching and learning.

Student Support Systems:

The district will have support systems in place for students not meeting standards and for those students that exceed standards.

Professional Learning Community:

Staff will work collaboratively to focus on student achievement and instructional data for the purpose of improved teaching and learning.

Community Engagement:

The district will engage our community of students, staff, families and other citizens in an on-going conversation about our current reality, our mission, and our plans to realize that mission.

High Quality Staff:

The district employs, develops and retains high quality staff. High expectations will be maintained for all district employees.
