

5th Grade Math Vocabulary

Unit 1:

equation

factor

multiple

product

dimension

double

evaluate

expression

halve

multiply

number relationship

parentheses

rectangular prism

volume

base

dimension

height

length

rectangular prism

width

area

array

base

value

associative property of multiplication

commutative property of multiplication

factor

evaluate

surface area

volume

ratio table

strategy

partial products

divide

area model of multiplication

row

column

estimate

remainder

dividend

divisor

quotient
