

Dear Cashmere School District Families,

During this unprecedented time, we want to thank you for the grace and patience you have shown us as we transition from learning in classrooms to learning in a new virtual environment. The push to take our academic programs online has required a great deal of learning by our faculty and staff (and we imagine your family as well), and while we have learned much over the past six weeks, we know we have more to learn and areas we can improve upon. Further, we recognize we are in this together and collaboration with our families is critical to the continued success of our distance learning program.

With this in mind, in an effort to take stock of our efforts thus far and gain feedback from our families, we are requesting you complete a distance learning survey at the link provided. In addition, if you have multiple students in our schools, we are also requesting you complete the survey for each individual student so that we can get specific information for differing grade levels. Your input is invaluable to us as we strive to improve our distance learning model and we thank you in advance for completing the survey. As always, please don't hesitate to reach out to your teachers, principals, or the district office with questions, concerns, or comments.
