SPORTS

It's the season of the 2022 Winter Olympics! Everybody is rooting for team USA, and they are living up to that! For Figure Skating, Mariah Bell just made her Olympic debut in Beijing. In Cross Country Skiing, Jessie Diggins just won a Bronze medal Women's Individual Sprint. In Freestyle Skiing, Colby Stevensten got a silver medal in the Men's Big Air. Keep being awesome team USA!

Crunch Pak Overload

In recent events, the fruit company "Crunch Pak " got into a lot of trouble. Crunch Pak had 130,000 boxes of fruit going to the NBA and Disneyland, that's 780,000 of single Crunch Paks! Snow fell and the air was freezing. According to The Yakima Herald.com, the resulting blizzard caused Snoqualmie Pass to be covered in 236 inches of snow.

The passes were closed. This left Crunch Pak in a troubling situation. 130,000 boxes of apples and cheese undelivered, were just lying around. Not delivering anything would do nothing for Crunch Pak, and they were out of ideas. If they didn't act soon 130,000 packs of apples would spoil.

What a waste for so many packs of apples to rot, uneaten! Crunch Pak racked their brains for anything that would turn this mess around. Then they had an idea. They would donate all of the apples to the local school district of Cashmere, WA. The next couple of days the Cashmere School District would get so many crunch paks that it would fill all of the buildings full. So they decided to give them to the kids, and boy were the kids stocked with apples for the rest of their lives.
